I am a Web Designer with 2 years of professional experience, currently working at Posimyth Innovations, where I specialize in creating responsive and user-friendly websites. Skilled in HTML, CSS, WordPress, Elementor, Gutenberg, and UiChemmy, I design and customize websites that deliver smooth functionality and engaging user experiences. I am passionate about blending creativity with technical skills to build modern, visually appealing, and performance-optimized websites that align with client goals.

Experience

Posimyth Innovations - Web Designer

Oct 2023 – Present

- Build and optimize responsive WordPress pages and multipurpose templates used in the WDesignKit/ eTemplates ecosystem; tailor layouts and components to different industries (salon, maternity, finance).
- Customize themes (headers/footers, blog layouts, inner pages), enforce clean HTML/CSS/Bootstrap structure, and keep designs consistent across devices and browsers.
- Apply on-page SEO and performance basics—semantic tags, image/code optimization—to improve load times and readability.
- Troubleshoot UI issues, validate cross-browser responsiveness, and collaborate with teammates to ship fast, stable pages.
- Representative work: MensGroomX (salon booking), BumpBlossom (maternity), FinPulse (finance) templates; Actilife Health WordPress site.

Sci-Vision Solutions Pvt. Ltd. - Web Designer

Mar 2023 – Sep 2023

- Developed user-friendly interfaces in HTML, CSS, Bootstrap, and WordPress, ensuring mobile-first layouts.
- Performed cross-browser checks and responsive fixes; aligned pages to brand guidelines and content needs.
- Coordinated with team members to iterate quickly on UI changes and content updates.

Virtual Height IT Services Pvt. Ltd. (Training)

Dec 2022 – Feb 2023

- Learned the basics properly HTML, CSS, Bootstrap and helped with small UI tasks.
- Picked up good habits like clear naming, clean formatting, and readable code.
